RECENT EXPERIENCE
Additional work history and references available on request

2016-Present
Digital Experience Design Consultant | Freelance

- Contracting independently as a subject matter expert in digital experience design processes and production management
- Initiatives include oversight of project scoping, collaborative workshops, user research, design system development, and delivery to market

2015 - 2016
Director of Experience Design | Vokal Interactive

- Served as point of contact for experience design contracts from initial vision to release for clients ranging from startups to Fortune 100 companies
- Fostered an environment of cross-discipline collaboration between design, product, and engineering groups while managing diverse teams of technocrats

2013 - 2015
User Experience Design Consultant | Manifest Digital

- Developed a roster of brand-aligned, operations-based experiences for insurance customers and agent user groups across desktop, tablet, and mobile
- Oversaw all facets of design work from discovery to deployment under budget and time constraints, often juggling several projects and teams at once
